

WOOD BARREL & BOSSING MALLET - DBW SERIES

Our "Woody's" series wood mallets made from grade A select midwestern grown hard maple for toughness, stiffness, durability and the increased wood density will out perform most other wood grade mallets. Hardwood is an excellent material for reshaping with a sander opposed to plastic mallets. But what makes our mallets different is our "fit & finish" which includes precision turned and sanded surfaces and a hand rubbed oil finish. We offer two styles: barrel with two precision cut and finished flat faces & bossing with one precision cut and finished flat face & one precision cut and finished radius on the other end. Each mallet sports our new ball end hammer handle for comfort and a secure grip.

Model No.	Head Diameter	Head Length	Radius Diameter	Handle Length	Weight
Barrel Style					
DBW01	2"	6"	n/a	11-1/4"	12 oz.
DBW02	2-1/2"	6"	n/a	11-1/4"	19.2 oz.
